## Dimock Daily Report

### FIELD ACTIVITIES

#### Water Supply

- Alternate water continues to be provided as necessary.
- The one resident whose well water was found to have high arsenic and who was receiving water from Cabot has declined further alternate water from Cabot and from EPA.

#### Sampling

- No homes sampled today.
- Region continues to finalize data packages for distribution next week.
- There are currently four outstanding residences that we are still attempting to schedule. Of these four, one will not be back in the area before April. We are still trying to re-schedule sampling with the resident in the hospital.

Includes home sampled yesterday afternoon.
